Hi. I'm Tawnell Hobbs, a reporter at The Wall Street Journal. I'm not sure where to send this request:

I'm trying to get data security breach reports, forms and/or information that entities are required to report to the state after a data security breach. I'd like the information dating back to Jan. 1, 2020 to present.

If this information is kept online, please provide a link. If your state does not have reports or forms responsive to this request, the information that I seek includes:

- the name of the entity that reported the data breach
- the entity's address
- type(s) of information affected (social security number, financial information, personal information, health information, etc.)
- number of people affected
- what type of attack (ransomware?)
- if it's a ransomware attack, please provide the ransom amount requested and whether it was paid or not, if applicable.

I can be reached on cell at 475-323-8149 if any clarification is needed.

Thank you.

Tawnell D. Hobbs
