Please read this letter in its entirety.

Dear [REDACTED]:

You are receiving this letter because you are a dependent of a current or former staff or faculty member of the Danbury Public Schools in Danbury, Connecticut ("DPS"). We are writing to inform you of an incident that may have exposed your personal information. We take the privacy of personal information seriously and want to provide you with information and resources you can use to protect your information.

**What Happened and What Information was Involved:**

On or about July 18, 2023 DPS detected that it was the target of a cybersecurity attack. An unauthorized third party attempted to infiltrate DPS' computer network. Upon detecting this incident, we moved quickly to secure our network environment and launched a thorough investigation. The investigation was performed with the help of independent IT security and forensic investigators to determine the scope and extent of the potential unauthorized access to our systems and any personal information contained within those systems.

Although we have found no evidence that your information has been specifically misused, it is possible that your name, mailing address, and/or social security number, to the extent that such may have existed on the network, could have been exposed. As of this writing, DPS has not received any reports of related identity theft since the date of the incident (July 18, 2023 to present).

While we have no evidence that any of your personal information was compromised or misused in any manner, we are taking appropriate precautionary measures to ensure their financial security and help alleviate concerns you may have.

**What is DPS doing to address this situation?**

Data security is one of our highest priorities. Given this, we have taken and are continuing to take steps to prevent a similar event from occurring in the future by implementing additional safeguards and enhanced security measures to better protect the privacy and security of information in our systems. We have also reviewed and taken steps to enhance our policies and procedures relating to the security of our systems and servers, as well as our information life cycle management.

In response to the incident, we are providing you with access to **Single Bureau Credit Monitoring/Single Bureau Credit Report/Single Bureau Credit Score** services at no charge. These services provide you with alerts for twenty-four months from the date of enrollment when changes occur to your credit file. This notification is sent to you the same day that the change or update takes place with the bureau. Finally, we are providing you with proactive fraud assistance to help with any questions that you might have or in event that you become a victim of fraud. These services will be provided by Cyberscout through Identity Force, a TransUnion company specializing in fraud assistance and remediation services.
